Patient Care Technician

Memorial Medical Center (Springfield, Illinois) - Springfield, IL

Present

I assist in helping with the quality of life in each patient and end of life care. I help in process of bringing the patient to their full physical capabilities, by making sure I and what they need for recovery is readily available.

Patient Care Technician

St.Marys Hospital - Decatur, IL

November 2013 to December 2016

Responsibilities

I assist in helping with the quality of life in each patient. I help in the process of bring a patient to their full physical capabilities, by making sure I and what they need was for full recovery was readily available.

Accomplishments

I helped in making decisions that would make my floor as a team better and ways to help us improve. By doing this and being a team player and caring about my patients I became our MVP at the hospital.

Skills Used

I demonstrated compassion skills, communication skills, customer service skills, the ability to be a quick thinker and to be part of a team.

Certified Nursing Assistant

Mckilnley Court Care Centre - Decatur, IL
July 2008 to February 2014

Responsibilities

I transported, bathed, fed residents and assisted in meals and snacks. I was an ear for the resident to listen when they needed someone to talk to. I assisted and played a big part in the quality of life of a resident. I also was involved in customer service by making sure the resident and family members needs were met and they were understood.

Accomplishments

I worked as a team player to achieve goals for the nursing home. I put a smile on my residents faces daily. I often served as an advocate for the residents.

Skills Used

Compassion, communication, the ability to listen and learn and be humble, customer service, and just being a friend and an ear.

Education
