CLINICAL EXPERIENCE

OR Circulator RN, Avalon Surgery Center

Glendale, CA (December 2021-present)

Operating room nurse/pre-op nurse at a multi-specialty elective surgery center. Cases include plastics, GI, urology, spine, and ortho to name a few. My scope of practice includes assessing patients prior to and during surgery, sterile prepping the patient for the procedure, assisting anesthesia with airway, conduct time-outs, set up and ensure equipment is functioning correctly.

Behavioral Psych RN, Tarzana Treatment Center

Tarzana, CA

(December 2021 - Present)

Registry nurse through Ayuda Healthcare Staffing, which is contracted with several treatment centers. Work in the detox unit - duties involve administering detox medications to patients in addition to PRN meds, observing them for side effects/worsening signs of condition/regression, assessing patients during initial intake, analyzing UA, monitoring patient care, following through with treatment plans, working with CNAs, LVNs, and social counselors to promote the best possible care in the facility.

ASC RN, Perimeter Orthopedics at Emory St. Joseph's Hospital**Atlanta, GA
(Jan 2021 – May 2021)**

Full time nurse working at an outpatient orthopedic surgery clinic. I rotate between pre-op, circulating in the OR, and PACU. Technical skills include proficiency in starting IV's, covid testing patients, circulating, prepping patients, setting up the OR (hooking suction, Bovie, etc.), getting instruments, counting, assisting CRNA with nerve blocks, drawing up medication, monitoring patients post-op and giving pain meds as needed, and working with the surgeons and PA's to provide the best possible care. Make pre and post op calls; to remind the patient of their upcoming appointment as well as check up on the previous day's patients.

Works with many different healthcare disciplines such as anesthesia, surgery, and pharmacy.

Piedmont Hospital**Newnan, GA**

Role transition – Operating Room (144 hours)
