

Nichole Franks

I am a highly established specialist with advanced skills in patient care, treatment plans, and operating within multidisciplinary teams to deliver advanced services to diverse range of patients.

Elma, WA 98541

coley0521@hotmail.com

360-346-3155

I am a dynamic professional well-equipped with an associate in applied science degree in nursing and currently studying towards a master's degree in nursing informatics at WGU.

I have a reputable track record delivering comprehensive patient care with specific focus on critical and general clinical care which included catheter changes, patient analysis, administration of medication, vital signs, biopsy processes, sterilization procedures, treatment plans and injections, as well as blood samples.

I demonstrated tremendous expertise as a registered nurse at Grays Harbor Community Hospital; delivered intrinsic care for patients and provided sound encouragement to motivate patients into cooperating during set treatment plans. I have highly developed expertise in health and safety policies and procedures.

I am collaborative, patient, and empathetic.
