Work Experience

Registered Nurse, Endoscopy

Fraser Health Authority - Burnaby General Hospital - Burnaby, BC
March 2015 to Present

RN - Endoscopy - Ambulatory Care

- I admit and prepare patients for endoscopic procedures, i.e., gastroscopy, colonoscopy, ERCP, and bronchoscopy. I also assist the physician in the endoscopy and bronchoscopy procedures in addition to providing procedural sedation medications and cardio and respiratory monitoring and intervention. I also recover patients after their procedure, provide patient and family teaching, and liaise with the physician and allied health to arrange follow-up care.

Registered Nurse (RN, BSN)

Vancouver Coastal Health - Vancouver, BC
April 2003 to Present

RN - Respiratory Medicine and Thoracic Surgery (Med-Surg)

RN - Respiratory Medicine and Thoracic Surgery (High Acuity/Stepdown)

RN - Respiratory Medicine and Thoracic Surgery (Respiratory Ambulatory Unit)

- I rotate work in this department at their Medical Surgical Unit, High Acuity/Stepdown Unit, and Respiratory Ambulatory Unit - a consult/emergency/urgent care clinic specific for Respiratory and Thoracic patients.

RN - Bronchoscopy

- I work with the Respirologist or Thoracic surgeon and Respiratory therapist to perform bronchoscopy. My main duties are administering procedural sedation medications, monitoring and caring for patients pre, during, and post procedures.

RN - Daybed - Ambulatory Care

- I admit and prepare patients for their day procedures, i.e. bronchoscopy, gastroscopy, colonoscopy, EUS, ERCP, lithotripsy, et. cetera. I also recover them post procedure and provide patient and family education and coordinating with physicians and allied health team for follow-up.

Education
