I graduated from nursing school in May of 2020 and immediately began a position as a Preop, OR/Circulator, and PACU nurse. I have experience with general surgery, GI, ortho, and some ophthalmology procedures. I am looking to take a temporary travel position in the Key West, FL area. I hold a compact state license. I will be planning on temporarily relocating with total availability of days. Willing to take call.

Willing to relocate to: Key West, FL - -

Authorized to work in the US for any employer

## Work Experience

---

### **Registered Nurse**

Rhea Medical Center - Dayton, TN

June 2020 to Present

- Preop patients for surgical procedures such as IV insertion, preop education, etc.
- Ensure preop checklist is complete such as consent signed, NPO status, antibiotic administration, etc.
- Coordinate patient care between all healthcare staff
- Assist CST in set up of OR for cases
- Properly position/prep patients for surgery, perform Foley catheter insertion, NG tube insertion, etc as ordered by physician
- Be patient advocate for safety and sterility
- Provide nurse moderate sedation as required
- Circulate OR and appropriately document procedures, obtain/label specimens, count instruments
- Coordinate radiology, ultrasound, lab, equipment reps, etc as needed and ensure all orders are completely timely
- Anticipate needs of surgeon for each surgery
- Recover patients post anesthesia (monitor vitals, manage airway, manage pain/nausea etc.) using clinical judgement to complete interventions as needed
- Provide discharge education to patient/family, including cast/bandage/sling care as ordered by physician
- Transfer patients as needed following recovery
