- BSN, CCRN, ACLS/BLS/PALS certification
- Minor in infection control
- Current charge nurse, preceptor
- Lead initiatives to change hospital policies
- Regular recipient of Daisy Award
- Experienced professional manager

### PROFESSIONAL MEDICAL EXPERIENCE

**Florida Hospital Wesley Chapel** *Registered Nurse, Intensive Care Unit* 2015- present

Continues to strive to improve our facility as a whole through a variety of projects ranging in areas such as education, professional development, clinical practice, research, leadership, and community service. Provided self as a resource to staff specializing as a superuser with Drager ventilators, Nx Stage CRRT, charge nurse and preceptor. Last evaluation achieved a level of high performer.

**Advent Health Zephyrhills** *Registered Nurse, Intensive Care Unit* 2016-present

Excels in a fast-paced and team-orientated environment to provide quality intensive care. Continuously improvised and implemented care plans in ordination with the medical team and ancillary staff.

**Health Central** *Clinical Nurse III, Intensive Care Unit* 2014 – 2015

Was responsible for providing life support by implementing and maintaining a variety of devices and processes such as balloon pump and Impella VAD, hypothermia treatment, and CRRT. Practiced with an array of monitoring and support systems to orchestrate the detailed care of multiple organ systems. Quickly determined course of action and act in detrimental situations using expanding experience under hospital protocols.

**Orlando Regional Medical Center** *Clinical Nurse III, Cardiac PCU* 2012 - 2014

Responsible for assessing disease processes, recognizing and anticipating acute and emergent situations and acting appropriately in a timely manner. Became familiar with acute cardiovascular treatments including catheterizations, stress tests, EKG interpretation, and administration of various hemodynamic drips.

**National Deaf Academy** *Registered Nurse* 2012 - 2014

Managed overall safety and healthcare from chronic to acute for 70+ students in a professional, safe environment. Devised, initiated and maintained treatment plans for students in association and collaboration with physicians, supporting staff, and families. Maintained medication supply with accuracy for administration to all students in a safe, timely manner. Managed medical records in accordance with governing regulations.

**Advent Health South** *Nurse Tech, Psych Med East* 2011- 2012

Completed patient physical and mental assessments for nursing staff to check off. Drew blood samples, administered wound care, participated in patient care plans. Recorded all patients' vital signs, reported any changes in their conditions to ensure patient safety

**Certified Nurse Assistant** *Orlando, FL* 2008 - 2011

Administered direct patient care for multiple disabled elderly patients. Managed support of clients' overall health, medication administration, assessments, activities of daily living, exercise, various therapies, nutrition, companionship, and care plan to promote clinical reinforcement and well-being.
