8638389179

My goal as a CNA is to grow my potential in the medical field; to care for and nurture those needing a steady hand and a strong shoulder to lean on when they themselves do not have the strength. As a CNA the medical field will be my path to succeed in my career and in my community. Utilizing genuine care and determination to strive and there in providing the best care for my patients/clients. Working as a caregiver is a constant endeavor to help change peoples' lives for the better.

WORK EXPERIENCE
