daniellemartinezrn@gmail.com

5121 Copper Ridge Drive Apt 204 • Durham, NC 27707 • 706-809-8808

- Education* **University of North Georgia**, Dahlonega, Georgia
Bachelor of Science in Nursing, May 2018
- Certifications* *Basic Life Support* by the American Heart Association
Advanced Cardiovascular Life Support by the American Heart Association
- Professional Preparation* **UNC Rex Hospital Intermediate Care Unit** Raleigh, NC
Registered Nurse, March 2021- present, Pulmonary/Neuro Intermediate Care
- Working in a high paced unit specialized in thoracic surgeries but populated with a wide range of medical intermediate care patients.
 - Proficient with chest tube management as well as care of the surgical patient including early ambulation and multimodal pain management.
 - Titration and administration of certain critical care medications as allowed by hospital policy.
 - Relief charge nurse and preceptor of newly hired RN's, as well as resource nurse for chest tubes.
- Northeast Georgia Medical Center MICU** Gainesville, Georgia
Registered Nurse, May 2020-March 2021, Medical and COVID-19 ICU
- Specialty training in donning and doffing PPE and environmental sanitation as well as conducting covid-19 screening and swabs.
 - Effective teamwork, prioritization of tasks, and clustering of care in high risk situations to reduce patient and employee exposure.
 - Assess deteriorating patients and communicate effectively with providers for additional orders, and intervening with life saving measures as needed.
 - Titration and administration of critical care medications as allowed by Georgia's scope of practice.
- Northeast Georgia Medical Center Progressive Coronary Care Unit**
Registered Nurse, July 2018- May 2020, Cardiac Stepdown Unit
- Fast paced floor specializing in treatment of heart failure, dysrhythmias, post-cardiac catheterization care, and various other cardiac and med-surg conditions.
 - Titration of certain critical care medications, including amiodarone, cardizem, insulin, dopamine, lasix, heparin, and others.
 - Orient and train new graduate nurses to the unit as a preceptor and mentor.
 - Shown versatility, teamwork, and adaptability in my skills when caring for patients with various levels of acuity.
- Northside Hospital**, Cumming, Georgia
Nurse Extern, May 2017-July 2018, Cardiology and Float Pool
- Worked as a monitor technician in the telemetry unit to identify cardiac rhythms and notify the primary RN of changes in patient condition.

- Worked as an EKG technician to manage and prioritize EKG orders, responded to code blues, and transmitted EKGs to physicians and the EMR.
- Worked as a patient care technician throughout every unit and level of care within the hospital.

Visiting Angels of Northeast Georgia, Cleveland, Georgia

Patient Care Technician, June 2016- July 2017

- Traveled between patient's homes to deliver care across Northeast Georgia.
- Worked with patients of varying levels of ability with conditions such as Parkinson's, muscular dystrophy, heart failure, stroke, and dementia.
- Assisted patients with activities of daily living, drove them to appointments, and offered companionship.
- Worked as a patient care technician throughout every unit and level of care within the hospital.
