ABOUT ME

I am looking to add to my existing experience in a fast-paced, skilled environment

I thrive in environments that require quick thinking and fast resolutions. My goal is to enter the world of emergency and trauma medicine, adding to the experience I have already earned.

SKILLS

 Efficient with time and resources

 Great communicator, works well with others

 Always takes initiative

 Great assessment skills

 Always willing to learn

EDUCATION

Bachelor's of Science in Nursing

Colorado State University-Pueblo

Graduated May 2020

EXPERIENCE

Registered Nurse

Colorado Dept. of Corrections / Fremont Correctional Facility / June 2020 - now

At Fremont Correctional I manage emergency/trauma situations as well as routine exams. This environment is very similar to an Emergency Dept. mixed with a doctor's office. Here we have a unique type of clientele with many unique health situations. This position has helped me develop great assessment and communication skills as well as quick prioritization.

Nursing Aid

Colorado Mental Health Institute-Pueblo/ June 2018 – June 2020

At CMHIP, I worked with intensive inpatient psychiatric patients. This position helped me to grow effective therapeutic communication and assessment skills. I gained great experience working with a unique population here.
