Work Experience

Registered Nurse

Chambersburg Hospital Wellspan - Chambersburg, PA

August 2015 to Present

I recently ended my career in the Emergency Department due to relocating. I have been a part of this team for 3 years. Previously I worked for 3 years on a med surge floor with a dialysis specialty. Working as a team with doctors, care managers, CNAs and others to give excellent care. Cardiac monitoring, medication administration, critical timing and response to patient conditions, assessments and ADL care was all required on any given shift.

Registered Nurse (RN)

Manorcare - Chambersburg, PA

April 2014 to January 2016

I worked as both a direct care nurse in all departments including rehab, long term care and dementia unit. I also worked as the house RN supervisor over a 200 patient facility. Wound care, medication administration, and care plans were all part of daily duties.
