WORK EXPERIENCE

Perioperative Nurse

United States Navy

06/2019 – 06/2021

Iwakuni, Japan

Achievements/Tasks

- Support preventative medicine team throughout the pandemic.
- Provide surgical patients with perioperative care in operating room, procedure, and recovery
- Develop and implement nursing care plans for surgical patients.
- Conduct trainings / clinical simulations and provide feedback for each trainee.
- Prepare patients for surgery and assist surgeons during surgical procedures.
- Apply sterile techniques in handling medical instruments and equipment pre-, during, and post-surgery.
- Facilitate training for 112+ personnel on emergency response to cardiac arrest, respiratory distress, and shock.

Perioperative Nurse

United States Navy

05/2015 - 06/2019,

Camp Pendleton South, CA

Achievements/Tasks

- Provided skilled, timely, and level-headed emergency response to critically injured patients.
- Selected and passed instruments and supplies to the surgeon during operation.
- Educated patients on best practices for recovery, including pain management and how to keep wounds clean.
- Managed the overall nursing care in the operating room that helped maintain a safe and comfortable environment.
- Worked with patients prior to surgery to complete preoperative documentations and helped answer questions or calm fears about surgery.
