## SKILLS

---

---

## EXPERIENCE

---

### NAVAL HOSPITAL SAN DIEGO

November 2020 - Present

- Perinatal Special Care Unit (PSCU) RN: Provide optimal postpartum (PP) care to couplet (mother and baby) patients. Well versed in caring for patients during routine postpartum care, as well as patients with postpartum hemorrhage, patients requiring magnesium transfusions, patients requiring blood transfusions. Well versed in infant assessments, 24 hour screenings, blood glucose monitoring, hypoglycemia treatment, and intravenous medication administration.
- Preceptor: Precepted five nursing school students during their mother-baby rotation. Instructed and oversaw future RNs on reviewing doctor orders, magnesium protocol, PP and infant assessments, medication administration, IV initiation and blood draw.
- Float RN to Labor and Delivery and Emergency Room as needed.

### CHAMBERLAIN COLLEGE OF NURSING

August 2017 - August 2020

- Obtained Bachelor of Science in Nursing. Graduated Magna Cum Laude.

### NAVAL SCHOOL OF HEALTH SCIENCE INSTRUCTOR

May 2016 – August 2017

- Certified Instructor: As a Hospital Corpsman Basic Training Instructor, provided medical training to over 700 junior Navy and Air Force personnel. Performed (50) academic counselings to ensure students were grasping and understanding material, which enhanced student study and test taking skills.
- Sexual Assault Prevention and Response Victim Advocate: Provided guidance and support for sexual assault victims during sensitive cases. Managed cases diligently and worked in close liaison with the regional Sexual Assault Response

- 
- Performing head to toe and focused assessments on adults and infants
  - Performing activities of daily living, accu-checks, venipuncture, visual acuity test, pulmonary function test and EKG
  - Administering medications, to include immunizations and “high-risk” intravenous medication.
  - Providing patient education
  - Coaching, mentoring and resolving discrepancies
- 

#### CERTIFICATIONS

- 
- CPR
  - BLS
  - Fetal Heart Monitoring
  - NRP
  - STABLE

Coordinators. Provided education to over 250 instructors and students on sexual assault reporting procedures.

- Management and Training: Managed daily operating schedule of 15 instructors, ensuring required curriculum plans were followed and adequate student to instructor ratios were provided. Tracked required training, ensuring 100% compliance.

#### NAVAL MEDICAL CENTER PORTSMOUTH

May 2013 – May 2016

- Administrative and Management: Created schedule and managed clinic template. As Manager for Anesthesia, Pain Management and Women’s Health Clinic, supervised personnel in the performance of clinical duties. Maintained journals, logs, and health records and performed medical administrative duties. Oversaw 40 personnel, assigned tasks and assured they were carried out both professionally and timely.
- Leadership and Supervision: Consistently provided leadership and shared professional knowledge with subordinates. Ensured all staff members provided patients and families with efficient care. Prepared semi-annual and annual performance evaluations. Provided conflict management and follow-up training, if necessary, to prevent reoccurrence of potential issues. Performed quarterly safety inspections, resulting in outstanding rating during the Joint Commission Survey. Completed Standard Operating Procedure for Emergency Response Codes for Women’s Health Clinic. Ensured operating rooms were adequately prepared for surgical procedures.
- Patient Care and Safety: Provided care to over 400 patients in Women’s Health and Pain Management.

**NAVAL HOSPITAL YOKOSUKA**

May 2011 – April 2013

- Patient Care and Safety: Provided care to over 400 Multi-Service Unit (MSU) and Intensive Care Unit patients. As the commands Assistant Respiratory Protection Program Manager, fitted over 20 personnel for respirators. This ensured 100% accountability for the Multi-Service Unit and decreased the transmission of airborne illness.
- Leadership and Education: As shift leader, mentored 14 personnel in their performance of their daily duties. Ensured MSU orientation was completed in a timely manner and proper procedures and protocol were followed. As an avid command instructor, instructed over 200 personnel on Basic Life Support, TeamSTEPPS and restraint use and application.
- Supply Manager: Meticulously maintained an inventory in excess of \$1,500,000 and managed an annual OPTAR of \$32,000. Ensured 100% accountability of all equipment and appropriate allocation of all consumables across two directorates.
