618-292-1328

I am a registered nurse seeking to use earned skills and knowledge to assist your organization in a nursing role. Proven to ably handle any medical emergency or situation, with the requisite skill set to perform under pressure. Excellent interpersonal skills, and am a dedicated worker with a sense of purpose. Easily adaptive to the ever-changing field of medical technology and evidence based practice.

Authorized to work in the US for any employer

## Work Experience

---

### **Registered Nurse**

Clay County Hospital - Flora, IL

April 2018 to May 2019

Main duties included but not limited to functioning as a med surge nurse that delivered quality care as well as medication management and assessments to a diverse and ever changing patient environment. Also floated to outpatient nursing department as well as assisting with the emergency the department. Trained to work as a part of the rapid response team. Proficient in med host program. Diligently worked to foster and encourage teamwork as well as individual advancement.

### **RN**

CARLYLE HEALTHCARE CENTER - Carlyle, IL

March 2017 to August 2017

Provided care for aging residents on a daily basis. Overseeing Nurse's aids. Administered medication, dressing changes, and various treatments to 15-20 residents each day. Educated and interacted with large amounts of residents and their families about their current and future healthcare needs and any changes that may take place. Communicated with physicians to provide the best available medical treatment available. Worked as a team member of a large group of staff to create a strong but flexible work atmosphere that is safe for residents, staff, and visitors.

### **HOME HEALTH NURSE**

MEDERI CARETENDERS - Mount Vernon, IL

July 2016 to March 2017

provide care for home bound patients. Teach clients about their medications (dosage, side effects, purpose), provide wound care, venipuncture, catheter care, specimen collection, educate patients, family member, and care givers about disease process and needed lifestyle modification. Continuously assess patients from head to toe for changes in status. Efficiently use Oasis charting and Pointe Care Charting systems to record patient data. Communicate with M.D.s directly related to patient care and changes.
