+1 618 924 2626

I am currently employed with a local area facility, that specializes in the acute rehab and return home unit, also provides long term care providing various levels of skilled care, to seniors who may not have the resources to remain in their homes. I currently hold a full time position which entails 3-12 hour shifts a week. I am passionate about the care we provide to our clients , as well as the support and education we provide to the families. My current schedule allows me the flexibility to pursue additional projects or offers. I am solely interested in opportunities that may fill a couple of my available days. My children are grown and independent therefore adds to my flexibility and availability for a potential; part time or per diem position.
