Work Experience

Care Pa

Sarah Community - St. Louis, MO

February 2013 to August 2013

Responsibilities

My duties consisted of getting clients up for breakfast so that they may start their Rehabilitation regime while under the supervision of A licensed Nurse. My duties included, daily assistance with hygiene, oral caer, nail care, changing colostomy bags, toileting, weights, heights some vitals. I also kept record of intake&ouptake, food consumption, to how the resident, feels, his or her actions complaints of pain, on a system called Dart charting. I also fe during mealtime, helped resident to decide what he or she wanted for a certain meal, I also took residents to chapel for daily Mass and church service.

Accomplishments

some impacts that I had during my time at this job are some of the residents wopuld tell the HR manager or the D.O.N that I was a wonderful, and pleasant person not just because this is job that I have to do but because I was patient, I listened and I was not rough and made sure that they where comfortable and satisfied and with that since I worked for Anna house in the rehab dept we get other patients fom other nursing homes and D.O.N's and familys would ask me did I want to be hired on at their Nursing somes or would I like to be a Caregiver for a family member when their family member left the facility to go back home.

Skills Used

Skills I demonstrated at this job was great listening skills, organization, patience, and great companionship as well as a great team-player

CNA/HHA

Merrit - St. Louis, MO

February 2013 to May 2013

Responsibilities

Assisted individuals in the comfort of their own home with light house keeping, laundry, bedmaking, and errands. I also assisted customer with daily hygiene, oral care, nail care, and toileting using either a bedside commode, bed pan or assistance and transfer to the bathroom with a gait belt and wheel chair with the assistance of the Rehab aid.

Accomplishments

One of the clients I took care of was an older gentleman he had just come home from the nursing home he was a Vietnam Veteran he was also married the company I worked for was very unprofessional and did not have the proper equipment to equip this man so they had to go with another company so the company that was taking over came over to the house while I was giving care and the wife and husband both told the company's owner that I was a very wonderful caregiver/CNA and they wished they could of kept me and maybe they should hire me on I smiled and told them that it was nice of them to recommend me and that I'm glad that they are about to receive the proper equipment her husband needed and that it was way more important for them to go with a company that's going to meet their needs and that was my priority as a CNA/Caregiver to make sure that this War Hero needs were met.

Skills Used

Some skills I demonstrated at this job were organization, listening to how and what my client needed while all the time following proper guidelines by my employer's handbook as well as state laws.
