Work Experience

HEALTH FACILITIES SURVEILLANCE NURSE

Illinois Department of Public Health (IDPH) - Springfield, IL

May 2021 to Present

Performs review of the plan of corrections submitted for surveys conducted for the agencies licensed under the Home Services, Home Nursing, Home Service Placement and Home Nursing Placement. Conducts licensure complaint investigation surveys for Home Services and Home Nursing Programs. Assists in the review of provider applications in relation to client contracts. • Reviews licensure survey documentation and recommendations from field staff. Determines that the documentation is consistent in the interpretation of the state regulations. Requests further information/clarification from survey staff when survey packages are not complete or in accordance with the principles of documentation and departmental requirements. • Assists in the review of provider's plans of correction, and recommends acceptance or required correction of the plan to the agency providers. • Travels to conduct licensure complaint investigations by going onsite to the agency to investigate and determine if the complaint allegation is substantiated and to determine if the agency is in compliance with the licensing regulations for the programs licensed under the Home Service, Home Nursing program. • Reviews initial and renewal provider applications to ensure the submission of the client contract is in compliance with state regulation and requests modification from the agency. • Assists in developing and providing continuing education in-services for the Health Surveillance Nurses on how to perform the survey process correctly and how to document violations on the statement of deficiencies survey form to ensure it is written clearly and legally.

Registered Nurse II

Andrew McFarland Mental Health Center - Springfield, IL

June 2014 to May 2021

Under direction of the Director of Nursing during assigned shift delivers care and treatment for individuals served by Andrew McFarland Mental Health Center consistent with and in adherence to individual treatment plans.
