Professional Summary

I have been a nurse for 26 years. Having worked at four hospitals in three countries, what has been true since day one, is the vital role of quality patient care to over-all patient satisfaction.

A work environment where I'm actively engaged in the delivery of quality care by fostering a culture of safety has been my mission throughout my nursing practice whether it's through direct patient care or working with a team of my colleagues.

This is the core my nursing practice. It's a gold standard that I believe I share with you in you're mission to hire the best candidate. It's a commitment I look forward to exemplify in the performance of this position.
