I am an experienced RN searching for a position that will allow me to use my knowledge and experiences to enhance those I care for or to be a resource to others. At the same time I am open to learning, challenging myself and working in new environments. Hard working, dependable, compassionate, however my strongest attribute is I deeply care for the people I care for. There is still much to learn and do in the vast array of "nursing" and I am excited with what awaits. Nursing is not a job but a passion.
