## Adventist Health White Memorial Telemetry/ COVID floor

Los Angeles, CA  
Nov 2020 – present

**As the region's leading faith-based, nonprofit teaching hospital, Adventist Health White Memorial strives to inspire wellness and treat medical conditions using the latest technology, equipment, and techniques. As a Telemetry RN I:**

- Solid technical expertise in the use of patient monitoring equipment
- Plan, implement and assess treatment plans for patients with respiratory illnesses
- Able to provide culturally competent care individual to each patient's preference.
- Able to recognize an acute patient emergency and manage the situation safely by utilizing the correct resources.

## SMM Health- St. Mary's Hospital Madison

Float Pool Nurse: ER, Cardiac Step Down, Neuro/Trauma, Respiratory, and Medical/Surgical Units

Madison WI  
Sep. 2019 – Sep. 2020

**SSM Health is a Catholic, not-for-profit health system serving the comprehensive health needs of communities across the Midwest through a robust and fully integrated health care delivery system. As a Float Pool Registered Nurse, I:**

- Performed all required patient care, physical assessment, documentation, and medication administration in a safe and timely manner
- Provided integrated assessment skills, care plan development, implementation, and evaluation based on hospital and unit specific policies and procedures.
- Implemented new floor assignments based on evaluation of staffing requirements up to three times in one shift.
- Coordinate communication among residents, family members, physicians, and coworkers to address problems requiring immediate/long term resolve.
- Cross trained to multiple areas to broaden my usefulness based on hospital needs.

**Mercy Hospital and Trauma Center**  
**Registered Nurse- Medical/Surgical**

**Janesville, WI**  
**Jan 2019 – Aug 2019**

**Mercy Hospital's providers, nurses and partners are committed to working together to make lives better for our patients and their families. Touching lives invigorates, inspires and drives us to do our very best, and we continuously look for ways to make each life better with the utmost care and professionalism. As a Registered Nurse, I:**

- Gathered, critically analyzed, and interpreted patient's health care data and information
- Managed patient emergencies promptly informing physicians of any vital changes in the statuses of patients and documenting information
- Collaborated with interdisciplinary team including physicians, physicians' assistants, nurse practitioners, physical therapists, dietitians, occupational therapists, pharmacists, pastoral care and social workers to provide patient care.
- Educated patients and their families on disease processes, medical-surgical procedures, and broad aspects of therapeutic regimens, to include medication and pain management techniques.

**Oak Park Place**  
**Licensed Practical Nurse**

**Madison WI**  
**July 2017 – Dec 2018**

**Oak Park offers a variety of different levels of senior care including: Independent Living, Memory Care, and Rehab services. As a Licensed Practical Nurse, I:**

- Providing the basic bedside care like dressing wounds, changing bandages, inserting catheters, and giving injections.
- Supervise certified nursing assistants and other non-licensed nursing professionals
- Administered medications to the patients and monitored and documented the effectiveness of all medications.
- Document accurate and complete patient information while addressing identified patient problems, and expected outcomes

## **Professional Experience**

### **Student Nurse/Clinical Rotations**

**Sep 2017-Dec 2018**

Develop and implement nursing care plans for patients and coordinate with multidisciplinary team members to facilitate integrated and comprehensive care.

### **Highlights:**

#### **Long Term Care-** Oak Park Place (120 Hours)

Provided on-going skilled nursing care to residents in need of assistance with activities of daily living.

#### **Short/Long Term Rehabilitation-** Tivoli at Divine Savoir (60 Hours)

Worked with patients who were recovering from chronic illnesses, injuries, or disabilities. Helped patients transition to further independence, build strength and mobility, and adapt to their situations in order to care for themselves independently as much as possible

#### **Medical/Surgical Floor-** Veterans Hospital (60 Hours)

Cared for adult patients who were acutely ill with a wide variety of medical problems and diseases including R partial nephrectomy, COPD exacerbation, ileostomy takedown, lower extremity cellulitis, pleural effusion, TIA, and TBI.

#### **Cardiac Step-Down Unit-** St. Mary's Hospital (80 hours)

Provided care to patients who needed close monitoring and frequent assessments after cardiac events or procedures. Monitored cardiac and critical vital signs to detect changes and intervene as necessary.
