WORK EXPERIENCE

Mount Sinai Hospital - 5N - Telemetry/Medical Step Down, Staff RN I | Chicago, IL
October 2020 - Present

Telemetry: This unit has 30 beds with a 5:1 nurse to patient ratio. I manage patients with various cardiac conditions who require telemetry monitoring. I ensure patient and staff safety, familiarize myself with the patient's plan of care, collaborate with the team to adjust the plan of care accordingly, assess/monitor my patient's condition, and communicate any changes to the medical team. Frequent transferring, admitting, and discharging patients are also my responsibility.

Medical Step Down (MSU): A 14 bed unit with a 3:1 nurse to patient ratio. I manage drips, patients who require higher oxygenation (high-flows, tracheostomy, ventilators), drains/vacuums, and upgrading/downgrading of patients.

Advanced Care Staffing - The Phoenix Rehabilitation & Nursing, Brooklyn, NY
Contract RN - Coordinator

June 2020 - August 2020

I perform patient assessment to identify problems, needs and response to care while supporting/delegating nursing staff to carry out resident daily needs. When problem situations are recognized, findings are reported and/or ask for supervisory assistance as needed. I work in an interdisciplinary team environment appropriately reporting findings to team members and/or physicians. I perform clinical procedures in accordance with organization standards and document complete, accurate and timely nursing notes via Point Click Care (PCC).

Execu|Search - Maimonides Medical Center, Brooklyn, NY - Contract RN

April 2020 - April 2020

Worked with an interdisciplinary team on an acute medical surgical unit providing care for ventilated and non-ventilated COVID-19 patients. Responsibilities included donning/doffing PPE according to evolving protocols, close monitoring of SpO₂, oxygen delivery, and tube patency and proper connection. Performed blood glucose monitoring, blood draws, and administering medications per MD/NP orders. Documentation was performed on Sunrise Clinical Manager EMR system.
