Looking for an RN position. Looking to further my experience and expertise in the medical field caring for others.

Authorized to work in the US for any employer

## Work Experience

---

### **RN**

CHI clinic Vally View Family practice/OBGYN - Council Bluffs, IA

October 2017 to Present

In this position I room patients, collect vital signs, medical histories and other pertinent health information. I perform eye exams, blood draws and give immunizations per doctors orders. I obtain swabs and cultures to be either sent to lab for testing or POCT in the clinic. I set up for sterile or clean procedures as needed and assist doctors with these procedures such as: punch biopsy, cryotherapy, and lesion/wart removal. I assist in performing incision and drainage of wound and removal and reinsertion of the nexplanon and IUD birth controls. I also clean and dress these wounds/incisions per doctors orders and instruct patient on incision cares. I thoroughly clean the procedure room after use. I also assist doctors in performing pap smears and STD testing. I assist in OBGYN mother/baby cares and am educated in what tests and assessments need to be done for mother/baby at each prenatal visit and can prepare the rooms and assist as needed. I am also familiar with child/adult immunization needs. I schedule procedures and other visits as needed.

### **LPN**

CHI Health at Home

October 2017 to April 2018

I go into the homes of my patients and provide skilled care ordered by the MD. I provide wound cares, I provide injections such as B-12, insulin, ext. per MD order. I assess my patients via head to toe assessments and vitals, I then chart my findings in a timely manner and contact physicians with any concerns or changes with the patient. I set up medication med-sets per MD order. I provide education to patients on medications and disease processes pertaining to their health. I do not leave the home until my patient is safe and comfortable.

### **LPN**

Angels Care Home Health

August 2015 to January 2018

I go into the homes of my patients and provide skilled care ordered by the MD. I provide wound cares, I provide injections such as B-12, insulin, ext. per MD order. I assess my patients via head to toe assessments and vitals, I then chart my findings in a timely manner and contact physicians with any concerns or changes with the patient.
