My goal is to provide safe, individually focused, high quality care to each person I serve. I will strive to advocate for my students, encourage healing, and provide them with exceptional care. Able to effectively communicate, demonstrate excellent leadership skills, and adapt to changing environments in a rapid manner.

Work Experience

nursing clinical liaison

Mercy Rehabilitation Hospital - Coralville, IA

November 2020 to Present

- Builds long term relationships with these referring facilities and physicians, facilitate the identification and assessment of future patient/resident admissions factoring in length of stay, and level of acuity which should align with the outcomes expected from clinical expertise in rehabilitation and nursing.
- Design, develop and drive cutting edge sales strategies designed to increase patient/resident admissions that leverage Kindred's core competence in the area of rehabilitating medically complex patients/residents.
- Knowledge of acute hospitals and post-acute settings in Coralville/North Liberty/Iowa City.
- Educate the community about the services provided by Mercy Iowa City Rehabilitation Hospital and will develop and maintain positive relationships with families, caregivers, medical professionals and the communities served
- Functions as a resource for and provides team members with in-service/cross-training on acute rehabilitation criteria, diagnostic case mix management, coding, etc.

Nursing Adjunct Faculty

Kirkwood Community College - Cedar Rapids, IA

June 2019 to Present

- Student-focused educator committed to student learning, retention, persistence, and completion.
- Teach the number of hours and courses stated in the employment contract for the time period agreed upon in the contract.
- As directed by the course coordinator, create course curriculum, course handouts, lectures, labs, presentations, and other course materials required to deliver course information in an understandable and interesting manner to ensure students are engaged with the course material in order to achieve the course learning outcomes.
- As directed by the course coordinator, create course rubrics in order to assess each student's performance related to the course's learning objective and to identify areas for student improvement.
- Assign grades and maintain course/student records in accordance with regulations and submit grades and records by established deadlines.

Health Care Coordinator

Keystone at Forevergreen Assisted Living and Memory Care - North Liberty, IA
October 2019 to November 2020

- Provide daily care to residents in assisted living/memory care units; perform assessments based on needs/doctors orders, and manage medications for residents.
- Communicated and coordinated with physicians, therapists, pharmacy, and ancillary providers to ensure residents received necessary visits, medications, and follow-up.

- Maintained detailed patient medical records, including patients' health status and diet and provided updated reports to medical provider in compliance with HIPAA requirements.
- Assisted in the hiring, training, coaching and disciplining of clinical team members.
- Communicated with executive director and other department coordinators to ensure the health and well-being of residents were being met per regulatory compliance and guidelines.
