2018 - PRESENTLY WORKING ON IT

Certificate — Awarded technical certificate through Ivy Tech Community college.

SKILLS

I've worked in the community numerous times working as a cadet in the Marine Corps JROTC conducting community service and serving others. Working as a Sterile Processing Technician in a high stress, fast paced, and demanding environment has prolonged my knowledge and has enabled me to serve our community. In the MCJROTC I spent three years of leadership experience before I went on to join Chambers choir where I still present myself out in the public eye, which has enabled me to give back to the community.
