+1 314 914 5351

My goal and aspirations in life is to help people medically. I trained and studied rigorously to obtain my certification as a nurse assistant. Since graduating high school in May of 2017, I've strived to further my education in the medical field and better myself overall. I believe my calling is to bring health and wellness to families and communities all over.

Authorized to work in the US for any employer
