Work Experience

Hospice Registered Nurse Case Manager

Hospice of the Midwest - Grinnell, IA

July 2021 to Present

I performed physical assessments and vital checks for patients residing at home or within a long-term care facility. I would monitor medications and obtain orders related to patient diagnosis and need. I communicated with physicians, medical directors, facility staff, and patients and their families to formulate a plan of care specific to each patient and their needs. I would visit patients in their homes or residing facilities to monitor their care and conditions. As needed, I provided availability to all responsible parties for care coordination and updates. I assisted facilities and families in completing end-of-life cares for patients that passed on. I rotated an on-call schedule. I utilized the PointCare system for charting and documentation for patient information. I completed initial assessments for new patient admissions and recertification assessments. I called in new medication orders to pharmacies and updated facility staff or family/ patients of said updates. I supervised nursing assistants during care visits and monitored the completion of patient care plans. I coordinated care with the hospice team through routine meetings and emails.

Registered Nurse

UnityPoint Health- Des Moines - Des Moines, IA

April 2020 to June 2021

As a registered nurse on the child/adolescent behavioral health unit, I would complete admission assessments for incoming patients. I would create a care plan and provide education to patients and their guardians. I completed daily assessments on patients to gauge their progress and offered further education related to our one-to-one interactions. I would offer updates and education to guardians as requested. I was the evening/ overnight charge nurse on the unit and was available as a resource to staff members. I would also fill in as the department-wide charge nurse when necessary. I kept up to date on policies and procedures for the department and organization. I promoted and executed safety plans as well as restraints and seclusions when necessary. I offered therapeutic care and management for patients and their families. I completed medical charting and assessments during my shift. I worked within a multidisciplinary team and collaborated with other members of the organization to offer the best treatment and care to each patient. I assisted in the training and orientation of new team members. I complied with federal regulations assigned to medical professionals. I filed CPI reports for suspected abuse of patients and was in contact with DHS when necessary. I filed RL solutions when safety concerns or other organizational issues arose.

Registered Nurse

Accura Newton East - Newton, IA
September 2019 to April 2020

I was responsible for medication administration of all residents within the long-term care facility. I assessed the resident's status prior to and after medication administration. I assessed residents that experienced falls or other accidents and injuries. I carried out treatments and wound dressings when necessary. I charted on all necessary residents. I was charge nurse of the shift and was responsible for the staff and any unplanned events. I informed management of said events. I completed documentation on residents that had passed away during my shift. I contacted the on-call doctor for necessary orders. I contacted outside facilities for medical needs that arose.

Certified Surgical Technician/ Registered Nurse

SCA - Des Moines, IA
May 2019 to September 2019

I set up and passed surgical cases while practicing sterile techniques. Once cases were completed, I would disassemble the instruments and clean sterile instruments. I would then prepare the instruments to be processed for later use.

I assisted in monitored the sedation of patients in the operating room. I administered the medicines necessary to provide sedation during procedures. I verified patients and their procedures prior to taking them back to the operating room. I circulated cases in the operating room. I assisted in transporting patients to the PACU and handed off patient report to the receiving staff.

Certified Surgical Technician

Wolfe Surgery Center - West Des Moines, IA
September 2018 to May 2019

I set up and passed surgical cases while practicing sterile techniques. Once cases were completed, I would disassemble the instruments and clean sterile instruments. I would then prepare the instruments to be processed for later use.

Certified Surgical Technician

Main Operating Room/Maternity - West Des Moines, IA
August 2013 to September 2018

I set up and passed surgical cases while practicing sterile techniques. Once cases were completed, I would disassemble the instruments and clean sterile instruments. I would then prepare the instruments to be processed for later use.

I set up and passed maternity cases such as c-sections and labor deliveries. I assisted in newborn care and cares for mothers. I stocked the unit and the operating room. I assisted the registered nurse in completing necessary tasks.
