I have been an RN for 10+ years. I have knowledge base in many areas, Acute care, ER, Long Term care, Medical Surgical, OR, and more. I utilize critical thinking and the nursing process to care for and educate my patients. Helping people receive the most competent and compassionate care is of utmost importance to me. Learning and growing are a constant you can never know enough, if you ask me. I practice frequent self-evaluation and take every opportunity to better myself by taking the time to study the areas needing improvement by educating myself for their benefit. I am looking for remote work as an RN and am looking forward to the opportunity with hopefully you!
