PROFESSIONAL SUMMARY

Licensed Practical Nurse I'm offering my expertise in vitals monitoring, mobility support, and bed sore prevention. I have experience in medication administration. I know how to keep the patients comfortable and safe. Improve quality of life with compassionate care. Proficient in proper charting procedures. I have learned these skills through clinical training in nursing school.

I have 11 years of experience in the healthcare field. I have two years experience as Certified Nursing Aide (CNA). My eleven years experience as a direct support provider (DSP). I provided care such as cooking, bathing, dressing my individuals. I would grocery shop for the individuals I cared for. I would take them to appointments and on outings. I also will do lesson plans and medication administration under nurse supervision. I provided a loving atmosphere and safety for the people I serve. I worked with the developmental disabled for over a decade. I have a experience with all individuals I care for no matter there circumstances.
