

LACEY ELIZABETH CARTER

Bachelors of Science in Nursing (BSN)

EXPERIENCE

CONTRACT TRAVEL NURSE

St. Dominic's Hospital | February 2021- present

My critical care responsibilities include:

- Administering medications, monitoring vital signs and providing vital care and treatment to ill, injured, and recovering adults in a critical-care environment.
- Keeping, maintaining and updating records of the patient's care.
- Communicating with and educating patients on day-to-day operations as well as home-care procedures, support, advocacy, and education.

STAFF CRITICAL CARE NURSE

Merit Health Central Hospital | June 2020 - February 2021

My acute care responsibilities included:

- Administering medications, monitoring vital signs and providing acute care and treatment to ill, injured, and recovering adults in a critical care environment.
- Keeping, maintaining and updating records of the patient's care.
- Communicating with and educating patients on day-to-day operations as well as home-care procedures, support, advocacy, and education.

UNIT NURSE MANAGER

Lakeland Nursing and Rehabilitation Center | April 2019 - April 2020

My unit nurse responsibilities included:

- Establishing standards of nursing care for the unit by applying evidence-based standards in health-care research.
- Monitoring patient care to ensure facility standards supersedes patients and family of patients expectations.
- Review patient records to analyze the effectiveness and efficiency of the care provided by the unit.

STAFF NURSE RN

University of Mississippi Medical Center | May 2017 - April 2019

My staff nurse responsibilities included:

- Administering medication, monitoring vital signs and providing care and treatment to ill, injured, and recovering adults.
- Keeping, maintaining and updating records of the patient's care.
- Communicating with and educating patients on day-to-dat operations as well as home-care procedures, support, advocacy, and education.

PROFILE

As a registered nurse, I have had the opportunity to focus on establishing a health care connection with patients of varied ages and medical histories. As a family nurse practitioner, I would be able to diagnose, treat, and manage illnesses by conducting lab tests, designing treatment plans and counseling with patients and their family.
