EXPERIENCE

Irwin Army Community Hospital, Fort Riley, KS — Clinical Medic

August 2014 - August 2016

- Screened and instructed over 5,000 patients, at a rate of 15 patients per hour, meeting strict timelines in a clinical setting with zero negative complaints, which guaranteed patient satisfaction
- Handled extraordinarily large amounts of work by providing medical coverage for over 200 cadets in a field training environment, ensuring medical care was provided immediately after an injury occurred
- Worked in a variety of departments and specialties, including primary care, dermatology, and women's wellness

1st Infantry Battalion, 26th Infantry Regiment, Fort Knox, KY and Afghanistan— Combat Medic

March 2013 - August 2014

- Provided emergency trauma care to numerous wounded American and Afghan soldiers, including providing life saving techniques in high stress environments with limited resources, resulting in minimal loss of life
- Administered immunizations and started intravenous infusions under challenging field conditions, allowing medication to be administered rapidly once patients arrived at a higher level of care
- Trained entire department of 15 in combat first aid and other emergency medical procedures, in order to enhance our unit's resiliency and ability to quickly triage and treat soldiers under adverse conditions
