## EXPERIENCE

---

### REGISTERED NURSE/OPERATING ROOM CIRCULATOR

02/2021 – Present

Acts as an advocate for the patient before and during surgery. Ensures a clean and sterile environment, prepares for operations, records surgery proceedings, monitors surgical staff, tools, and equipment. Manages the delivery of samples and specimens. Ensures patient's body is in alignment, all pressure points are padded and patient's position is anatomically correct.

### REGISTERED NURSE/PEDIATRIC HEALTHCARE CONNECTION

04/2018 – 01/2021

Assessed patient's physical and emotional needs. Provided respiratory treatments such as IPV, cough assist, nebulizer treatments, CPT vest, trilogy ventilator. Seizure management, gastrostomy care, ADLs, I&O catherization. Established professional rapport with patient families and co-workers. Provided patient and family education. Managed and administered enteral feeding. Documented patient charts.

### REGISTERED NURSE/AVEANNA HEALTHCARE

09/2015 – 01/2021 (2015 – 2017 formerly known as Epic)

Administered medications. Performed head to toe assessments and applied Nursing process to care for patients and monitor patient's condition. Changed, cleaned, administered care for tracheostomy and tracheostomy supplies. Established supportive relationships with families caring for their children with chronic illnesses. Assisted with ADLs and therapy exercises to promote growth and development. Served as primary Nurse where duties included training of other Nurses, patient and family education. Documented patient charts.
