- Discuss plan of care with patients & family members
- Prioritize nursing tasks as appropriate
- Participate in & construct a team-based approach care with fellow employees

Registered Nurse

Emergency Department
November 2021 to November 2021

in December of 2014 and have been practicing as a registered nurse at Columbia St. Mary's since February of 2015. For three years I worked on the 7 West Adult Medical/Surgical floor, developing my skills and exercising my passion for patient care. I had the privilege of working as a charge RN, providing leadership and guidance for new employees. I began working in the Emergency Department in March of 2018. Through our teamwork we strive to provide excellent care to those who seek our service. I have learned to think critically, to put my patient first, to communicate among the healthcare team members, and maintain a positive attitude during stressful situations. After working at Columbia St. Mary's I look forward to new challenges and responsibilities, to learning more skills in new atmospheres, while utilizing what I have acquired in joining your healthcare team. Thank you for taking time to look over my resume. I may be contacted at (920) 207-0985. I look forward to hearing from you soon.
