Work Experience

LPN Charge Nurse

Regent Park Rehabilitation & Healthcare - Holyoke, CO

August 2016 to Present

Charge Nurse for a 12 hour shift/tour of duty. Overseeing and ensuring the dignified quality of care for 42 patients. My staff consisted of anywhere from 2 up to 6 certified and uncertified employees. I was responsible for the medical, physical, and psychological well being of all of my patients. Worked closely with other nurses, doctors and health care providers as well as assign and oversee the work of my nursing assistants. Complied with all federal and state rules and guidelines and prepared reports as well as daily documentation as to such adherence. Administered medications, oral parenteral, IM and Sub Q. Monitored response of such medications. Monitored diabetics and provided wound care. Delivered oxygen therapy and Respiratory therapies. Trach care. Provided emotional support to my patients, their families, as well as my staff when needed.

Welders Helper

Klinzman Welding - Sterling, CO

August 2015 to November 2015

We contracted at Western Metal in Denver, Co working on, repairing, and ensuring that their Large metal crusher, cyclone, and all conveyor belt ran safely and efficiently. I learned to operate a forklift, skid steer, manlift, and other operational equipment as well as minor welding procedures.

Charge Nurse LPN

Devonshire Acres - Sterling, CO

December 1996 to March 2013

I spent 17 years as a unit charge nurse. Ensuring the dignified, quality care of approximately 32 patients at a time. Assigning and overseeing the work of 2- 5 nursing assistants responsible for the activities of daily living for my patients. My duties, obligations, and responsibilities remain unchanged from that in which I described from my most recent job above at Regent Park.

Certified Nursing Assistant

Devonshire Acres - Sterling, CO

August 1991 to August 1995

Assisted residents with all aspects of activities of daily living, in a safe and dignified environment. Reported to my charge nurse at all times.
