Aspirus Wausau Hospital
333 Pine Ridge Blvd
Wausau, WI 54401

To whom it may concern,

I am writing this letter to apply to the open Cardiac Telemetry Unit Registered Nurse position that I found listed on the Aspirus career website. I believe I would be an asset to the cardiac team because of my excitement and willingness to learn on top of my skillset and knowledge already gained as a registered nurse.

I graduated from UW-Madison in May 2019 with a Bachelor of Science in Nursing degree. I've been working on the Oncology Care Unit as a nurse since July 2019, obtaining my chemotherapy and immunotherapy certificate in fall of 2020. Prior to that, I worked as a CNA and student nurse intern on OCU. During my internship, I shadowed in the cath lab which sparked my interest in cardiac care. A requirement as a nurse on OCU, I received education on advanced EKG rhythms. Learning about the heart and rhythms, I continued to be drawn to it. I took the opportunity of shadowing on CTU which solidified my desire to apply. I've learned evidence-based practice from UW-Madison and have the eagerness to continue learning. I've obtained a chemotherapy and immunotherapy certificate, advanced EKG certificate, continuing education, updating BLS, and wish to learn more to increase my knowledge and improve patient care.

I'm excited to apply to this position as a registered nurse. I believe that my experience, drive and passion make me an ideal candidate for this position. I would greatly appreciate your consideration of my application.

Thank you for your time and I look forward to hearing from you.

Sincerely,

MORGAN MUELBECK
