To create a work environment that treats patients in the most effective and financially responsible way possible. I want to change the way society looks at assisted living and long term care.

Work Experience

RN Healthcare Coordinator

prairie hills assisted living and memory care

March 2020 to Present

Responsible for training and leading by example, for all nursing staff. Daily tasks include scheduling and staffing, infection control, QA reports, inventory, budget, work closely with medical professionals in best interest of residents, education of staff and residents, and educating and enforcing policies and procedures for all staff and team members.

Rn/mercy One

home health

October 2019 to March 2020

Home health RN that went into patient homes to perform skilled nursing care and wound treatments. Educated patients and ensured they had appropriate resources available upon discharge.
