Work Experience

LPN

St. Josephs Home

January 2018 to Present

in a long term care facility which also has memory care units. Utilizing my nursing skills to provide quality care of residents of facility, working in conjunction with doctors of said residents to optimized premium care. Also working along side hospice staff for residents that are under such care. Often used as charge nurse, overseeing the facility in its entirety, correcting any staffing concerns or needed changes, ensuring all residents are properly cared for, overseeing the nursing staff including CNA's. Documentation of any all incidents that may have occurred, following up with doctors orders, and making all the necessary calls to family, DON, and ADON.

LPN

River Birch Senior Living

October 2013 to January 2018

in an assistant senior living setting. I utilized my nursing skill along side the doctor on staff to assess and educate patients and family member diagnosis and continued care to health.

CNA/technician on 3B rehabilitation

Memorial Medical Center

2004 to 2012

Memorial is CARF accredited rehabilitation floor along with Magnet status. In my years with Memorial Medical Center I have been utilized my skills as a technician to help and assist nurses in patient care. I worked along side my co-workers and assisted them with any help needed and/or requested. I ended my career with Memorial to attend nursing school full time.
