Seeking an RN position within a progressive hospital setting.

I am a professional and hardworking registered nurse with a current license to practice as a registered nurse. I enjoy working in nursing and have a variety of skills and experience. I like to learn new skills and keep my nursing skills up to date all the time as I feel this is important to keep on top and be as experienced as possible. I feel that I have excellent communication skills and I am able to listen carefully to meet patients' needs and requirements. I am self-motivated and dedicated to my profession and looking to be the best on my specialized section. I am keen to work hard in anything that I do.

Work Experience

Registered Nurse

Healthcare Network Staffing

April 2021 to Present

Outline:

Providing high quality nursing care for patients within a 26-bedded ward, managing acute to chronic health issues. As a medical-surgical nurse, I provide routine treatment and post-surgical care such as Assessments wound care, Oxygen Therapy, Tracheostomy Care, Vital signs, Nasopharyngeal and Oral Suctioning, Intravenous Therapy, Insertion of Catheters, Assessments. In addition, I assess changes in patient's health status and perform various treatments.

Key Responsibilities:

Responsibilities include medication administration, timely charting and all other routine aspects of patient care.

- Collaborating closely with multidisciplinary teams and promoting effective and empathetic communication with patients and relatives
- Follow up with timely and accurate charting procedures and verify prior shift information.
- Conduct initial assessment of patients upon admission and assist in discharge planning.
- Report changes in patients' conditions routinely and when requiring immediate attention.
- Collect specimens from patients for laboratory testing.
- Monitor, evaluate and record food and liquid intake and output levels.
- Orientate of new personnel in areas of patient care, medical practices and procedures.
- Operate equipment and assistive devices to safely transfer patients dispensing of medications.
