## EXPERIENCE

### Psychiatric R.N., Santa Rosa — Santa Rosa Behavioral Hospital

January 2022 - Current

My role as a psychiatric RN is diverse and collaborative. The psychiatric RN at Santa Rosa Behavioral Hospital functions as the unit charge on their respectively assigned floors. Duties include ensuring correct documentation and implementation of physician and court orders to include; holds, forced meds, restraints, transfers, admissions and discharges. Crisis intervention, maintenance of therapeutic milieu and, and deescalation are all central components of working as a Psychiatric Nurse. I also am responsible for responding to all codes on my unit, and all duties which fall under the nursing process.

### Psychiatric Technician, SLC — Ascend Recovery

July 2020 - November 2021

As a psychiatric technician I had a great deal of autonomy while working in an acute and transitional drug rehab facility. I operated as the only staff on site in the transitional facility and my duties included; medication administration, urine analysis, rounding, vitals, and monitoring/observing patients for signs of drug use and psychiatric distress.

### Clinical Rotations, — Salt Lake City, University of Utah

July 2020 - November 2021

My capstone consisted of 120 hours at the Utah State Correctional Department where I gained experience responding to and stabilizing; MI's, Stabbings, suicide attempts and several other emergent/critical conditions. I have completed approximately 520 hours of clinical rotations. My rotations have been conducted at the University of Utah where I have had shifts in; Medical surgical Units, Huntsman Cancer Institute, Pediatric Emergency Department, NICU, Labor and Delivery, Emergency Department, and the ICU.
