## Work Experience

---

### **RN emergency response/Independent living/ Assisted living nurse**

Rappahannock Westminister Canterbury - Irvington, VA

December 2019 to Present

I currently work the night shift from 1930 through 0830. The campus at RWC consists of elderly residents living out the rest of their lives on campus with varying degree of needs. I assist independent living with medication delivery from 1930-2300. From 2300 - 0730 I over see and work along side CNA's and RMA's on the Assisted living and Enhanced Assisted living area's. I am responsible for emergencies anywhere on campus such as falls, chest pain, stroke, any type of illness. I began my employment here just as COVID-19 was beginning to affect our American lives. I have witnessed the weekly testing of residents as well as employees and myself. I have administered rapid covid tests on other employees. I have provided care for residents infected with the covid virus.

### **RN CEN**

HCA Retreat Doctors Hospital - Richmond, VA

January 2006 to June 2020

- During this time period I worked on a med surge unit in the role of charge nurse. I was also ONC certified and administered chemotherapy to patients as well as blood transfusions, administered medications and completed assessments on the patients. I was responsible for creating the patient care assignments and equally distributing the patient care load among other LPN's and RN's. As charge I was also responsible for safety and care of all of the patients on the unit as well as new admissions during the night.
- In 2008 I transferred into the emergency department at Retreat Doctors Hospital from the med surg floor. I am the night shift charge nurse in the department as well as at the bedside. In 2016 I obtained my certification as Emergency Nurse. I oversee the patient care flow in our 12 bed emergency department which mostly caters to the adult population in inner city of Richmond

### **LPN Charge Nurse**

VIRGINIA HEALTH SERVICES - Gloucester, VA

1995 to 2008

I was the charge nurse as well as the night shift supervisor at Walter Reed convalescent Center. I worked the various units from memory care to skilled care and rehabilitation/post op unit. During my shifts I was responsible for the safety and care of the residents, I administered medications, completed wound care and over saw CNA's and other LPN work related duties.
