Poplar Bluff Regional Medical Center ICU only
Bethesda Memorial Hospital (pediatric ED unit) Boynton Beach, FL
Wellington Regional Medical Center (ED/ICU) Wellington, FL

I began my nursing career in 1997 as an L&D nurse. After one year I began staffing the newborn nursery and pediatrics. I'm very proud of this background as I rarely meet a critical care trauma nurse with my background. I'm able to float to any hospital and work almost any department. This past year I have spent extensive time in the PCU, ICU, And ER. My ICU experience includes, CVICU/MICU/SICU/neuro ICU/ NICU. I have also worked in multiple Level I trauma Centers as well as Level II and III in the ER. I feel that I bring a lot of knowledge, experience, and clinical skills to the table however, what sets me apart from many applicants is that I bring my HEART to my job. I wouldn't be doing this if I didn't love and care for people. I'm a patient and family advocate above anything else. I truly love what I do and I do what I do to make a difference. Earning a paycheck has little significance if I can't accomplish that. I'm a good team player and I rely on my team members to bring out the best in me as I also try to do the same for them. I will admit that I'm looking forward to a little more one on one nursing care, so that I can truly give all I have to save the patients who come my way. I hope you'll consider giving me a chance to show you what I'm capable of.

Thank you 😊
