Authorized to work in the US for any employer

Work Experience

Registered Nurse

Mercy Medical Center - Baltimore - Baltimore, MD

July 2008 to Present

Labor and Delivery Nurse

I support and assist women in the labor process

I'm a great communicator and value the need for team work to deliver safe and effective care to my patients

I, at times, run triage and need to use critical thinking and assessment skills in triaging more acute patients over stable

I have IV skills and blood draw skills. I use both daily, sometimes multiple times, in a shift

I manage and administer appropriate medications including but not limited to pills, IM shots, subcutaneous shots and IV drips (heparin, antibiotics, pitocin and insulin)

I have both OR and PACU experience with tele monitoring recovering (D&Cs, cesarean sections, hysterectomies)

I help maintain sterile fields and sterility in the OR as the circulating RN

I'm trained in scrubbing and have knowledge on commonly used OR instruments within L&D

I'm up to date with CPR certification and I am also Electronic Fetal Monitoring certified

Education

BSN in Nursing

Villa Julie College - Stevensville, MD

August 2003 to May 2008
