WORK HISTORY

LABOR AND DELIVERY REGISTERED NURSE 04/2021 to Current
Rush University Medical Center, Chicago, IL, Illinois

- Supported pregnant women in healthy labor processes, including changing bodily positions and breathing, coaching through childbirth and post natal recovery.
- Aided with induction of labor for women suffering from complications such as preeclampsia.
- Assisted physician during delivery, examination and surgical procedures by anticipating needs, encouraging patient and attending to baby after birth.
- Monitored and assessed mother and newborn after delivery to ascertain proper healing and recovery.
- Took records of birthdates and times, baby weights, lengths, head circumferences and APGAR scores.
- **Post-Partum (MBU)**
 - Coached new mothers with breastfeeding techniques, postpartum self-care and infant care to promote easier transition into motherhood.
 - Educated new parents on how to properly care for infants by instructing parents on bottle feeding, bathing, circumcision care and breastfeeding.
- **Newborn Care**
 - Administered medications and fluids and checked vital signs on newborns.
 - Delivered medications via oral, and intramuscular injections, monitoring responses to address new concerns.
 - Administered medications to 3 to 4 patients simultaneously and monitored response to medications

NURSING ASSISTANT 09/2019 to 04/2021
Rush University Medical Center, RUMC, Chicago, IL

- Reported unusual or urgent circumstances in patients' condition or environment immediately to nurse supervisor.

- Offered immediate assistance in emergency and routine paging situations to evaluate needs and deliver care.
- Observed or examined patients to detect symptoms that required medical attention such as bruises or open wounds.
- Obtained biological specimens for ordered tests and prepared for laboratory transport.
