Work Experience

RN Staff

Shiftkey

October 2018 to Present

shift key (contract) October 2018-present

Care for patients completely under the supervision of a physician in a long-term care setting. Deal directly with patients on a day to day basis and prepare care plans individualized to each patient. Take care of the daily needs of the patient and convey any problems and/or questions about the patients care to their assigned physician. Follow up on any abnormal vital signs which were delegated to the nurse aides on my floor. Administer medication in a timely manner using the 6 rights of medication administration. Handle simple wounds and injuries, injections, applied and changed dressings as ordered by the physician. Monitored IV levels and noted changes. Advocate for my patients and their families to ensure the best possible care was being given to each individual.
