To continue to grow and develop my skills as a licensed practical nurse within a collaborative environment that allows me to both contribute and grow

Authorized to work in the US for any employer

Work Experience

Charge Nurse LPN

NORLITE NURSING CENTER - Marquette, MI

March 2021 to Present

Currently work 12 hour shifts in a long term care/rehab facility. My duties include medication passes, assessing residents, working with on call physicians regarding changes and concerns observed in my residents. Being a charge nurse I take on the tasks of delegating work load to CNA staff members working below me, making sure call in shifts are covered to attempt to avoid 16 hour shifts for other staff members. Recently awarded employee of the month for how dedicated I am to my job, how personable I am with residents, family members and coworkers and how I'm always willing to jump in and help other coworkers so they are not drowning in their workload.

Home Health Care Aide

Northern Homecare Services

October 2016 to June 2021

Worked with an individual who has physical disabilities that require daily care including bathing, dressing, hair care, toileting, ambulation, medication reminders, and household chores
