Home Health Nurse Interim Healthcare

Often times I - Waterloo, IA

January 2000 to December 2002

I worked as a Home Health Nurse at this time. I went from one clients house to another. I saw from 6-7 clients a day. At times it was a husband and wife in the same house. Often times I went ahead and made a meal and did a little cleaning up in the home. I also checked out their medications and also treatments if needed. I checked their home for anything that might not be safe. I visited with family members concerning care and also called the doctor if needed. I took the orders and carried them through. I really enjoyed this type of nursing.
