Additional Information

SKILLS

Proficient in basic nursing cares including vitals, medication administration and charting. Assessments, wound care, NG tube cares, ostomy care, TB screening, employee health and intakes. Conversing with and obtaining orders with on call physicians. Strong collaborative skills in working with different professions to achieve a desired goal. Working with a challenging patient base. Experience in deescalation, therapeutic communication and restraint/circulatory assessment. I managed care of a large, diverse prison population. Worked as charge nurse with nursing unit coordinators; where I delegated duties and supervised patient care.
