## Work Experience

---

### **Registered Nurse**

Rockcastle Regional Hospital - Mount Vernon, KY

December 2016 to Present

I work on the Acute care unit at this facility where I care for acutely ill patients and covid-19 patients. I have also worked as charge RN on a long term care vent unit where all of my patients are on ventilator long term and some have the chance to wean off of the ventilators. We have a very wide range of patients babies all the way up to geriatric patients. I have experience working with troubled children who spend their every day life on vents, and children with mental disabilities. Other patients I care for have medical conditions such as: ALS, COPD, paralyzed, premature infants, NAS babies, respiratory failure, obesity, etc. I love what I do and would love to get the opportunity to expand my horizon. I am also currently still in school at Chamberlain University working towards my nurse practitioner.

### **SRNA**

Rockcastle Regional Hospital - Mount Vernon, KY

July 2012 to Present

I worked at Rockcastle regional as an SRNA while I was in nursing school.
