## OBJECTIVE

---

To Continue to gain clinical experience in level 1 trauma centers. Goal is to continue to expand my skill set.

---

## EXPERIENCE

---

Angel Staffing

PCU , Med-Surg/Tele

Abilene Regional

July 2020 – April 2021

- Providing prompt care for critically ill COVID-19 patients. Responsible for following CDC/ infection control guidelines to decrease the spread of COVID-19. The skill set to recognize the rapidly declining patients. Duties : Managing cardiac drips, Bi-pap/C-pap settings, comfort flow meter, administering anti-vital medications, NIH scale/screening, retrieving and reporting labs in a timely matter. Providing patient education regarding isolation restrictions, new medications side effects and overall recovery expectations.

Jackson Staffing

Lead RN

Long term Acute Care

June 2020 to July 2020

- Provided charge nurse duties during night shift. Provided overall holistic care for the elderly patients. My responsibilities included patient's physical assessments, administering medications, documenting vitals, Screening Testing/reporting for the onset of COVID-19. Managing staff to keep strict isolation to reduce the spread of COVID-19 throughout the facility. Give thorough report for the incoming shift. Communicate physical changes with on-call care provider. Delegate light duties to patient care assistants.

Loyal Source

IMC PCU/Step Down RN

Ochsner Medical Center

April 2020 to May 2020

- Help convert the med-surg unit to IMC/PCU Unit. Help facilitate the needs of staff nurses to safely transition from a med-surg unit to PCU unit . My experience in PCU have lead me to play team lead throughout the floor transition. Providing safe effective care for critically ill patients with Covid-19 diagnoses. Providing effective communication with physicians , respiratory therapists, physical therapist and dietary needs to ensure the best outcome for patient's recovery. Skill set: Bi-Pap/C-pap settings, rapid response recovery, high flow oxygen ,management, prone position management, administration of anti-viral medication, cardiac drips, insulin drips
