Work Experience

House Supervisor

St. Charles Hospital - Luling, LA
2015 to Present

Registered Nurse

St. Charles General Hospital - Luling, LA
March 2013 to Present

Responsibilities

I work as a prn Rn and initiate iv's, care plans, critical care drips as well as discharge PTs with follow up care and resources ended for PTs outcome

Accomplishments

I have earned respect from all my co workers as a dedicated caring nurse that PTs return to the hospital for there continued care as there past experiences were delightful and the we manager has gave the PTs recognition letters

Skills Used

Triage by a 5 tier triage, asses PTs, start ivs, plan of care and either perform admit sets or discharge follow up to ensure pt satisfaction

Registered Nurse Supervisor ER

ILH hospital - New Orleans, LA
December 2006 to Present

Responsibilities

I would make staffing assignments supervise all care and manage pt flow through er as the supervisor, lead trauma and medical codes as well as initiate ivs, care for the critical PTs on gtt's. Teach new staff members roles of er nurse and functions

Accomplishments

I worked hand in hand with the stroke coordinator for ILH to become a stroke accredited hospital as I implemented stroke practice and times to set records for door to meddle times as I personally have a 19 door to tpa time as well as 8 recorded tpa's in 30 min or less as ILH was certified as a stroke center and opened up the new stroke unit

Registered Nurse

Ochsner Kenner ICU - Kenner, LA
November 2009 to February 2011

Responsibilities

Receive report from previous shift. Assess and treat my critically ill PTs and turn every 2 hours as ICU needs we're met based on PTs functioning state as well as meds to stabilize PTs and downgrade PTs to floor etc

Accomplishments

The ICU mgr offered me a full-time charge nurse position as he recognized my leadership skills and critical care based knowledge as a true leader

Skills Used

I would treat all my critically ill PTs with respect and dignity as their healing and care were the primary focus. As well as good outcomes off my PTs to have the best critical care given
