Misericordia home

CNA and then RN in a skilled care, long term pediatric facility for severe and profoundly disabled children and young adults.

I was a stay at home Mom for several yrs. During the period of time, I was not employed as a Registered Nurse, I was providing nursing care in my home for my son. He required, oxygen, suctioning, cardiac/apnea monitor, pulse oximeter, IV hyperal/antibiotics via a central line. He also was NG and G-tube fed during that time. From 1976 until the present, I have gained a wide range of nursing experience both in my professional and personal life. I have experience in providing acute, chronic, and palliative care. I enjoy all areas of nursing, Hospice is the area, I find most rewarding professionally.
