Work Experience

Clinical Nurse II

UC Davis Medical Center & Health System - Sacramento, CA

June 2021 to Present

Clinical Nurse II

Northbay Medical Center - Fairfield, CA

February 2020 to June 2021

- NorthBay Medical Center

This non-profit and community-based hospital is a JCI-accredited, Magnet-recognized, level 2 trauma center, chest pain center, and primary stroke center in B. Gale Wilson Boulevard in Fairfield, California, with a 182-bed capacity.

Intensive Care Unit (General/Mixed ICU)

The unit consists of 24 private beds/rooms designed to provide specialized care to the critically ill adult patient. The primary focus of patient care is medical in nature, but the unit also caters to surgical, trauma, neuroscience, and cardiovascular patients.

Clinical Nurse II

Albany Medical Center - Albany, NY

June 2017 to January 2020

- Albany Medical Center

This teaching hospital is a JCI-accredited, level 1 trauma center and comprehensive stroke center in New Scotland Avenue in Albany, New York, with a 766-bed capacity, the largest locally-governed health system in northeastern New York.

o Medical/Surgical ICU Stepdown

The progressive care unit consist of 17 private beds/rooms. The patient population served includes acute and chronically ill patients, 18 years of age or older, with a variety of medical/surgical diagnoses. Nursing care focuses on care requirements that involve a higher frequency of surveillance, assessment and intervention than can be provided on a general medical surgical unit, with a nurse/patient ratio of 1:3.

Staff Nurse

UNIVERSITY OF SANTO TOMAS HOSPITAL - Manila, AR

August 2012 to June 2017

- Cardiovascular Unit

This 15-bed capacity unit focuses on medical cardiology. Patients in this 15-bed capacity medical cardiology and vascular unit received from the Emergency Department, Cardiac Catheterization Lab, physician offices, and other facilities when inpatient admission is necessary.

The patient population served includes male and female, acute and chronically ill patients with a variety of cardiac and medical diagnoses. Most patients admitted to the unit require telemetry monitoring.

Staff Nurse

UNIVERSITY OF SANTO TOMAS HOSPITAL - Manila, AR

November 2006 to August 2012

- Male Surgery Ward

This floor is a 45-bed capacity general surgical unit that caters to acute and chronically ill male patients with a variety of medical and surgical diagnoses. The age of the patients served ranges between 18 years of age and older, with the majority of patents between 45 and 85. The unit is divided into five services namely, general surgery, neurosurgery, orthopedics/trauma, plastic surgery and thoracic & cardiovascular surgery.
